E- collection of legal regulations

Electronic collection of regulations include laws, regulations and other legal acts of the Republic of Macedonia Customs Tariff, templates / up to it for:

- Drafting contracts
- Initiation and conduct of litigation
- Requirements, submissions
- Proceedings before state authorities
- Establishment, status changes, changes in legal form and reorganization
- Drafting general and individual acts
- Customs tariffs with tariff numbers and customs taxes

The templates are given in **word**. They can be used as an easy Way to fill out as an application with particular data about the user.

E- collection will significantly make your work easier helping you solving everyday problems and studying them, helping the user to search for what s/he needs according to a several criteria, including

- According to title of the law and some other legal act
- According to a keyword
- According to the section where the law/regulation belongs to
- According to the date when the law / regulation was brought into force

Apart from this it also enables the user:

- Viewing, copying, printing the text of the law / regulation the text of the law / regulation-
- Viewing the history of this law / regulation, or its earlier stages and changes

Electronic collection of laws and other regulations is based on the official laws and regulations published in Official gazette of the Republic of Macedonia and the single base of laws and other regulations that are fully updated on a daily bases. *This program is protected by copyright*
